MISSION STATEMENT

The mission of AccessAbility, Inc. is to provide opportunities for self-sufficiency for people with barriers to employment and community inclusion.

What does AccessAbility do for people with barriers to employment and community inclusion? AccessAbility, Inc. assists people with barriers to employment and community inclusion to work and access the community. We do this by placing people in jobs in the community and providing the support they need to be successful. People are either placed in individual work sites or with a work crew supervised by an AccessAbility staff member. We also provide work in-house by working with other companies and paying people with barriers to employment to perform the work. In addition, we provide non-vocational recreation programs designed to allow consumers the opportunity to participate in community activities.

VALUES

AccessAbility, Inc. bases its values on the concepts of quality, responsibility, accountability, openness, integrity, and respecting all individuals. These values create the code of ethics and conduct that are followed by everyone. Any suggestions, comments, or concerns about these values should be brought to the attention of the President.
